How Technology Can Ruin Your Real Estate Business
Course # 33888 8 Hours CE Cost: \$80

Technology has revolutionized the ways we live, shop, socialize, entertain, access information, and conduct business in the modern world. Powered by the Internet, cloud-based tools, social media, and mobile apps, the technology revolution has delivered tremendous positive impact by bridging gaps between cultures, improving quality of life, enhancing operational efficiency and speed, and many other advancements. However, if used without proper safeguards, modern-day technology can expose agents and their clients to many vulnerabilities. Viruses, malware, social engineering, identity theft, and other malicious threats (all of which are growing at alarming rates) are particularly concerning because the nature of the business requires real estate professionals to collect and store their clients' personally identifiable information. This course empowers agents with the strategies and tools you need to navigate your business and clients through the perilous legal, online, and social media world. Course participants also leave with actionable tips and strategies for personal security as well as security for your technology devices.

CE Credit

If seeking CE credit, please bring your real estate license and a valid photo ID.

Special Services

If you require special accommodations to participate, please let us know at least 3 days prior to the course and attach a written description of your needs.
