

XpressKEY™

Easy and convenient
touchscreen key

XpressKEY is Supra's compact touchscreen key that is easy to use and quickly opens keyboxes. It updates automatically over cellular networks and sends showing notices in real time. GPS technology is used for advanced features like end of showing notifications, automatic keybox assignments and key location assistance.

XpressKEY

XpressKEY is an easy to use key that quickly opens keyboxes. It has a sleek, compact design and works seamlessly with the entire Supra iBox family. Automatic updates add convenience and there is no need to be in cellular coverage when showing a listing. Read keyboxes at listings and display the agent name and phone number of the 10 most recent entries.

The Real-Time Advantage

XpressKEY is equipped with a cellular radio for communicating with the Supra network.

- Sends real-time showing data
- Transmits end of showing notices
- Remote deactivate/authorize
- Automatic updates

GPS for Advanced Features

The XpressKEY contains built-in GPS that uses location data to:

- Notify listing agents when showings start and end
- Automatically assign keyboxes to listings to provide address detail on reports and showing notices
- Assist in identifying the location of the XpressKEY if it is lost or stolen
- Display a map of the last known location of the XpressKEY when an agent sends an alert notification email
